EDUCATION

Ivey Business School

Honors Business Administration (HBA)

- Intending to pursue a dual degree in Business and Computer Science

Sep. 2026 – May 2028 (Exp.)

London, ON

Western University

Honours Specialization in Computer Science (BSc)

- Western Scholarship of Distinction; 2x Dean's Honour List standing

Sep. 2024 – May 2029 (Exp.)

London, ON

WORK EXPERIENCE

Program Management Intern, Data & AI

Scotiabank

May 2026 – Aug. 2026

Toronto, ON

- Supported the Regulatory Program Management (RPM) team with data governance audits, designing a centralized tracker to streamline RFI collection and coordination
- Independently developed and led an AI-enabled horizon scanning process monitoring 100+ global jurisdictions, automating regulatory intelligence gathering and surfacing actionable compliance risks for leadership review
- Drove gap analysis across emerging global AI regulatory frameworks, translating complex legislation into actionable requirements and mapping controls to close compliance gaps

VOLUNTEER EXPERIENCE

Vice President of Communications

Science Students' Council, Western University

Apr. 2026 – Present

London, ON

- Began as a Communications Committee Member (24/25), advanced to Director of Communications (25/26); now leading a portfolio spanning social, print, and web that keeps 6,000+ Western Science students engaged
- Shape how Council shows up on campus, from event promotion to bulletin boards, making sure students always know what's happening and how to get involved
- Set brand and messaging standards across the team to keep Council's presence consistent, approachable, and true to the Science student community

Product Fellow

Ivey Product Society

Jan. 2026 – Apr. 2026

London, ON

- Developed and delivered a full PRD for a Notion Calendar feature surfacing inline database properties to reduce context-switching, then pitched the concept to industry professionals
- Sharpened PM fundamentals through weekly workshops on product requirement definition, user story mapping, and prioritization frameworks

AEO Onward Blog Writer

Ivey Business School, Western University

Oct. 2025 – Apr. 2026

London, ON

- Captured Ivey's emerging tech and business scene through feature articles spotlighting student leadership, entrepreneurship, and innovation

PROJECTS

Winnipeg Community Compass

Summer 2025

- Developed a Leaflet.js web app helping over 5,000 users locate shelters, donation points, and wildfire support
- Recognized by CBC Manitoba, CBC The National, and the Manitoba provincial government, generating 1.5M+ views across coverage of the wildfire crisis response
- Built and deployed the full-stack platform solo in under a week amid the crisis, implementing geolocation and dynamic filters to help users quickly find the nearest, most relevant resources

Small Business Owner

2023 – Present

- Channeled my passion for graphic design by selling digital art prints, driving 300+ sales and \$3,500+ in revenue
- Manage the business end-to-end, from design and production to marketing and customer service

SKILLS

Technical Skills: Java, Python, JavaScript (Leaflet.js), Excel & MS Office Suite
